

Profiles

Users will have the ability to create their own public profiles, complete with contact information and hobbies. Users will have the ability create posts on their own page.

Groups

Students will be able to create groups based on whatever interests them.

Reviews

Students will have the ability to rate professors and review the classes they have taken. The professor ratings page will have ratings (0-10) of the professor's class and a short review.

Recommendations

The system will generate recommendations for users to communicate with based off of similar interests
